PRODUCT BROCHURE

About Us

Founded in 1971, SOP has continued to evolve and invest in its operations to support the changing needs of our customers and partners. From our early beginnings in Runcorn, through our move to Hertford and the opening of our purpose-built headquarters and distribution centre in Harlow in 2020, each stage has played an important part in our continued growth.

In 2026, we reached another significant milestone with the opening of our new facility in Ellesmere, further increasing our operational capacity and strengthening our UK distribution network.

As we look ahead, we remain focused on building strong partnerships, expanding our portfolio and delivering authentic Asian and Oriental products with the quality, reliability and service our customers expect.
